## SECTION 4. FIRST AID MEASURES

- General advice** : Remove contaminated clothing and get medical.
- If inhaled** : If difficulties occur after dust has been inhaled, remove to fresh air and seek medical attention.
- In case of skin contact** : Wash with soap and water. Contact physician if irritation or other symptoms occur. If hot wax strikes skin, drench or immerse the area in water to assist cooling. Do not remove wax from a burn after it cools. Consult a physician.
- In case of eye contact** : Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Get medical attention immediately if irritation develops and persists.
- If swallowed** : DO NOT induce vomiting. Do not give anything to drink. Call a physician immediately.
- Notes to physician** : Treat symptomatically.

## SECTION 5. FIREFIGHTING MEASURES

- Extinguishing media** : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.  
Water mist  
Dry powder  
Foam  
Do not use solid water stream as it may scatter and spread fire.
- Hazards during fire-fighting** : Emits toxic fumes under fire conditions. This product presents no unusual fire or explosion hazards while sealed in a shipping container. During usage, if a dust cloud is generated, organic powders have the potential to be explosive with static spark or flame initiation.
- Protective equipment** : Wear personal protective equipment.  
In the event of fire, wear self-contained breathing apparatus.

## SECTION 6. ACCIDENTAL RELEASE MEASURES

- Personal precautions** : Wear suitable protective equipment.
- Emergency procedures** : Evacuate personnel to safe areas.  
Provide adequate ventilation.  
May form explosive dust-air mixture.  
Avoid dust formation.  
Accumulations of dust from this product in the workplace may increase the likelihood or severity of an explosion.  
Risks of ignition followed by flame propagation or secondary explosions shall be prevented by avoiding accumulation of dust, e.g. on floors and ledges.  
Eliminate all ignition sources if safe to do so.  
Do not swallow.  
Avoid breathing dust.  
Avoid contact with skin, eyes and clothing.
- Environmental precautions** : The product should not be allowed to enter drains, water courses or the soil.
- Methods and materials for containment and cleaning up** : Avoid dust formation and electrical charging (sparking) because dust explosion might occur.  
Do not create powder cloud by using a brush or compressed air.  
Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations (see section 13).  
Use only non-sparking tools.  
For molten product:  
If material is molten, allow to cool. Use caution, as material may still be hot after solidification.  
Spilled material will solidify.  
Allow to solidify.  
Scrape up.  
Shovel into suitable container for disposal.

## SECTION 7. HANDLING AND STORAGE

- Advice on protection against fire and explosion** : Take precautionary measures against build-up of electrostatic charges, e.g earthing during loading and off-loading operations.  
Keep away sources of ignition. Dust can form an explosive mixture in air.
- Advice on safe handling** : Avoid dust formation. Keep away from sources of ignition.
